Dear US Home Exteriors:

I wanted to thank you very much for your help choosing the right windows. We're novices to window replacement so your experience and good advice really helped us.

The windows look great. Your crew did a really nice job with the install. In fact, the windows were installed in a rental house and the VERY FIRST prospective renter to see the house, after the window installation, rented it! Our investment in your Timeless windows is paying off already.

Thank you for your consultation and for the great team work.

Best regards,

Amy and Bill Whitley
